Languages: HTML, CSS + SCSS, JavaScript

Libraries: React.js, Three.js/React-Three-Fiber, GSAP

Frameworks: Bootstrap, Bulma, Tailwind CSS

Tools: Git, Node.js, Vite, Visual Studio Codium, PostgreSQL, Firebase, Insomnia, Express.js, Zustand, Axios, Wave Tool, W3 Validator, Lighthouse

WORK EXPERIENCE

Web Developer Intern (February 2023 - May 2023)

National Jail Management and Penology Training Institute

- ✓ Assisted in the development of an information system for the faculty members of the institute using Vue.js & Firebase.

Computer Systems Servicing (2020 - 2022)

Freelance

- ✓ Effectively troubleshooted and fixed certain issues with computer systems.

PROJECTS

Security Services Unit Patrol System (Capstone)

Vue.js, Bootstrap & Firebase

- ✓ Led our team in making a full-stack web and mobile patrol system for the security unit at Colegio de San Juan de Letran-Calamba.
- ✓ Developed the system's web portal that serves as the dashboard for the Head of Security.

Password Generator Extension (Side Project)

JavaScript

- ✓ Developed a simple password generator extension with options for digits, special characters, mixed case letters, and a slider to adjust the length of the password.

Gran Turismo Sport Car Showroom (Side Project)

React-Three-Fiber & SCSS

- ✓ Created a virtual car showroom inspired by Gran Turismo Sport with Three.js & SCSS, and soon migrated to React-Three-Fiber.

Asteroids (Side Project)

JavaScript

- ✓ Recreated the iconic Asteroids game that was released by Atari in the late '70s using JavaScript, & added my own twist to it.

EDUCATION

Colegio de San Juan de Letran-Calamba (2019 - 2023)

BS Information Technology
